

I began listening to KLOVE about 3 years ago. At that time my marriage was in distress, my oldest son was just born and I was sitting in a divorce attorney's office. I called in to KLOVE and asked to be on the prayer list. The staff pastors began praying for me and my family. The music encouraged me while I was at work and in the car. My husband tunes in now. We have something VERY STRONG in common. Our 3 year old son listens to KLOVE and requests it by name. We are stronger in our faith and to each other because of the messages KLOVE brings us about family and marriage. We contribute \$500 a year to this program because we believe in their ministry. I have recently joined a group of people I work with to meet weekly and discuss "The purpose Driven Life" as talked about on KLOVE. We are a stronger working family because of this time together. I STRONGLY believe that we need positive, encouraging music on the radio that I am not afraid to have my son listen to. There is too much Yuck out there. Please...don't take this away from my children.
